

Couvrette's Classic Kiosk has been solution-engineered to offer a free-standing walk-up or drive-up installation with a variety of exterior materials to match existing architectural themes. The prefabrication system eliminates the time and expense of on-site construction while creating the look of a custom building. An optional vestibule or integrated canopy protects the ATM and customers from inclement weather. The kiosk is manufactured with a sealed roof, roof drain, and a steel frame exterior and interior to assure long life in all weather conditions. Exterior finish options include stucco, wood, tile, brick, or other custom finish. Couvrette also supports any customer paint color and provides marketing and branding graphics to suit any installation.

Dedicated to quality, Couvrette offers complete turnkey service and provides solutions for site planning, site construction, design, manufacturing, delivery, installation, service, and maintenance.

## *Benefits*

Offers safe and secure environment for ATM and cash handlers.

Kiosk acts as a "monument sign" providing a highly visible area for branding and marketing.

Custom building sizes available with concrete floors, metal stud construction and exterior finish options to fit any existing architecture.

Enclosure is built to fit site requirements, providing quicker installation without the cost of building extensions.

AB244 compliant down lighting increases safety for the ATM customer and service personnel.
