

## Product Bulletin: Couvrette Designs Custom Walk-up Surround for Butterfield Bank

### *Surround Offers Backlighting, Storage, and POS Literature Holders*

Couvrette Building Systems introduces a newly designed custom walk-up surround for NCR models PersonaS 74 and 75, 5674, and 5675. The interior metal surround has a backlit sign panel and integrated brochure holders on both sides.

Couvrette worked closely with Butterfield Bank to meet the design requirements of the ATM installation. In addition to integrated brochure holders on either side of the steel surround, the customer requested a signcan design that allowed the backlit signage to be easily replaced. Couvrette engineers developed a solution that makes replacing the backlit signage as simple as flipping the sign panel back and sliding out the artwork which is protected by a clear overlay. Custom branding elements were incorporated to support the financial institution's corporate identity and marketing efforts. A side access panel allows for easy access to the lighting and offers additional storage. The surround stands 84" high for increased visibility, while maintaining the smallest possible depth and width to accommodate the various ATM models and keep the overall footprint as small as possible.

The Custom Walk-up Surround represents Couvrette's "Design and Build" philosophy, creating a one-of-a-kind surround while maintaining cost-effective manufacturing process to ensure the highest quality for the best price. Couvrette applies this philosophy to the job requirements of all of their customers, delivering quality products that uniquely identify the financial institution's corporate identity without the high cost typically associated with custom-built products.

Custom Walk-up Surrounds with Backlit Signcan and Integrated Brochure Holders

### *About Couvrette Building Systems*

Couvrette Building Systems, established in 1975, provides a full line of services and products to financial institutions, government agencies and commercial/industrial enterprises. Industry experience and knowledge enables Couvrette to provide its customers with a level of service unmatched by our competitors.

We are a full service General Contractor with on-premise electrical, data, CADD, construction and millwork departments. We are a customer-oriented company with capabilities for Project Management and Design builds. Our crews and office support staff consists of experienced individuals who together compliment the "Couvrette Team." We are a dedicated group of individuals who offer nationwide, twenty-four (24) hour a day, seven (7) day a week service.

Couvrette Building Systems offers the complete turnkey services, from site planning, design and construction of the ATM enclosure, delivery, installation and routine service. We provide quality workmanship, adherence to budget and on-time completion. We have the stability, experience and competitive drive to provide our customers with a level of service, integrity and reliability second to none.
