

Couvrette Building Systems custom walk-up surround can be designed to fit most any lobby-style ATM. The Custom Walk-up Surround represents Couvrette's "Design and Build" philosophy, creating a one-of-a-kind surround while maintaining cost-effective manufacturing process to ensure the highest quality for the best price.

The Custom Walk-up surround has a backlit sign panel for high visibility. Additional features, such as integrated brochure holders and side cabinets for writing shelf, waste receptacle, and envelope dispenser can also be incorporated into the design. Backlit signage can be designed for easy replacement, and a side access panel allows access to the lighting and storage. The surround can be designed for any height to provide increased visibility, while maintaining the smallest possible depth and width to accommodate the various ATM models and keep the overall footprint as small as possible.

Dedicated to quality, Couvrette's complete turnkey service provides solutions for site planning, site construction, design, manufacturing, delivery, installation, service, and maintenance.

## Benefits

Provides smallest possible ATM enclosure footprint.

Optional backlit signcan and custom graphics increase visibility and promote corporate identity.

Writing shelf, envelope dispenser, and waste receptacle can be added for increased usability.

"Design and Build" philosophy allows custom design while keeping costs low.
