

Couvrette's Neighborhood Branch™ provides the environment for traditional relationships and consultative services of a branch without the expense, disruption, and down-time of on-site construction. The Neighborhood Branch™ modular building is relocatable and can be used to increase market penetration or to test potential markets. A variety of floor plans and designs can be customized by Couvrette engineers to meet the exact requirements of the installation. Couvrette supports any customer paint color and provides marketing and branding graphics to suit any installation.

Dedicated to quality, Couvrette offers complete turnkey service and provides solutions for site planning, site construction, design, manufacturing, delivery, installation, service, and maintenance.

Benefits

Provides traditional relationship and consultative services environment between financial institution and customer.

Cost-effective and fast alternative to stick-built construction.

Custom floor plan can be configured to meet the needs of different locations.

Complete project management and support from site planning to delivery, installation, and service.
